

■ PAID FEATURE · TRAVEL PLAN

Travel Plan: know who is arriving, in transit, and on campus.

A travel and arrival visibility module for international intake teams. Students submit arrival details; university staff monitor travel status and prepare support before students reach campus.

PRIMARY USERS

Incoming students · Arrival coordinators

■ FEATURE OVERVIEW

Arrival operations without spreadsheet chasing.

Travel Plan gives universities a clean view of student arrival details, travel timelines, and campus arrival status. Staff can see who has submitted details, who is in transit, and who needs follow-up.

What the client gets

When Active, the module unlocks Travel Plan dashboard cards, sidebar navigation, campus travel lists, status filters, student travel records, and arrival monitoring. When inactive, travel screens and campus travel tabs are hidden.

3

Typical states: not submitted, in transit, arrived

■ WHAT USERS CAN DO

Travel details become operational data.

STUDENT

Submit travel information

Students enter arrival date, time, airport/station, transport mode, flight/train details, and emergency notes where required.

STATUS

Track travel states

Staff can distinguish missing details, submitted plans, in-transit students, and arrived students.

CAMPUS

Campus travel tab

FOLLOW UP

Identify gaps

Travel data can be viewed by campus so local teams know who is arriving to their location.

Students with missing or incomplete travel plans can be contacted before the arrival rush.

PREPARE

Coordinate arrival support

Arrival teams can plan pickups, check-in staffing, orientation support, or emergency response based on expected arrival windows.

REPORT

See intake readiness

Travel status gives leadership an intake readiness signal before the semester starts.

Detailed functionality map

AREA	DETAILED FUNCTIONALITY	WHAT THE CLIENT CAN EXPLAIN
Travel fields	Arrival date, arrival time, destination campus, airport/station, flight or train number, transport mode, accommodation note, emergency contact, and remarks where configured.	Students provide actionable arrival information, not just a rough date.
Status tracking	Missing, submitted, incomplete, in transit, delayed, arrived, or follow-up needed states can be represented by the operating workflow.	Staff can prioritize attention instead of reading every record manually.
Campus filtering	Travel records can be grouped by campus or destination so local teams focus on their arriving students.	Multi-campus universities can run arrival support locally.
Gap review	Coordinators check missing dates, unclear destinations, late arrivals, incomplete contact details, and risky arrival windows.	Problems are found before students are already traveling.

AREA	DETAILED FUNCTIONALITY	WHAT THE CLIENT CAN EXPLAIN
Operational planning	Teams plan pickup, check-in desks, orientation, housing handoff, late-arrival support, and emergency response from the same data.	Travel Plan becomes an intake operations dashboard.
Arrival closure	Staff mark or confirm arrival so the student record moves from expected to arrived.	The university knows who actually reached campus.

■ ANIMATED EXPLANATION

How arrival information is collected and reviewed.

USER ACTION · 1 OF 7

Enter travel details

Student provides arrival information before travel.

Outcome: Travel plan status changes from missing to submitted.

INFORMATION TAKEN

Arrival date/time, destination campus, airport or station, flight/train number, transport mode, accommodation/check-in notes, and emergency contact.

HOW IT IS REVIEWED

App checks required fields and saves the student's latest travel plan.

DECISION / RESULT

Travel plan status changes from missing to submitted.

Travel plan submission and arrival tracking flow

FAQS

Travel Plan questions clients usually ask.

- What is Travel Plan? +
- What information does the student provide? +
- Can staff see students who have not submitted plans? +
- Can staff see incomplete travel plans? +

How does Travel Plan help during airport arrival?

Can records be filtered by campus?

What statuses can the team track?

Does Travel Plan replace emergency communication?

Can Travel Plan help orientation planning?
