

## ■ PAID FEATURE · AMBASSADOR MANAGEMENT

# Ambassador Management: peer guidance before and after arrival.

A structured ambassador program for internal student mentors and external ambassadors, helping prospects and incoming students connect with trusted people instead of searching alone.

### COMMERCIAL MODEL

Standalone paid module

[← Back to Paid Features catalog](#)

## ■ FEATURE OVERVIEW

# Turn student experience into a guided support network.

Ambassador Management lets a university invite, manage, and showcase ambassadors. Students discover mentors in the mobile app, while external ambassador flows support web-based prospect engagement where configured.

## What the client gets

When Active, the module unlocks ambassador dashboard cards, sidebar lists, invite flows, ambassador detail profiles, mobile ambassador carousel, and external ambassador discovery where enabled. When inactive, ambassador tools and discovery surfaces are hidden.

### 2

Ambassador types: internal and external

### 1:1

Guidance path from student to mentor

### 360

Profile context: campus, course, language, interests

### On

Discovery only when the module is Active

**Sales story:** Universities can show prospects and incoming students real people who can answer practical questions about campus life, admissions, culture, housing, and onboarding.

### ■ WHAT USERS CAN DO

## Ambassador programs become visible, searchable, and governable.

### INVITE

#### Add ambassadors

Admins invite student ambassadors or external ambassadors depending on the

### PROFILE

#### Maintain mentor profiles

Ambassador profiles show useful matching context such as program,

university's package and operating model.

campus, interests, languages, and introduction details.

DISCOVER

Student discovery carousel

Students browse ambassador cards in the mobile experience and open profiles to choose a relevant mentor.

CONNECT

Start a conversation

Where Chat is Active, students can reach ambassadors directly without sharing personal phone numbers.

EXTERNAL

Prospect-facing ambassadors

External ambassador surfaces support recruitment conversations before students are fully enrolled in the app.

CONTROL

Govern visibility

Admins can keep ambassador visibility tied to entitlement, role assignment, and university policies.

Detailed functionality map

| AREA                 | DETAILED FUNCTIONALITY                                                                                         | WHAT THE CLIENT CAN EXPLAIN                                              |
|----------------------|----------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------|
| Internal ambassadors | Current or enrolled students can be invited as peer mentors with university-controlled role access.            | Incoming students can learn from real peers already connected to campus. |
| External ambassadors | External ambassador profiles can support prospect-facing web discovery where the university enables that path. | Recruitment teams can extend peer support before full enrollment.        |

| AREA               | DETAILED FUNCTIONALITY                                                                                                    | WHAT THE CLIENT CAN EXPLAIN                                                        |
|--------------------|---------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|
| Ambassador profile | Photo, name, program, campus, languages, interests, bio, experience, and contact entry points where Chat is Active.       | Students get enough context to choose the right person.                            |
| Discovery carousel | Students browse ambassador cards in the mobile app and open profile detail before deciding to connect.                    | Mentor discovery is visible and approachable.                                      |
| Invite control     | Admins control which users can become ambassadors and can remove or suspend access when needed.                           | The university decides who represents the institution.                             |
| Chat dependency    | Profiles can be discoverable through Ambassador Management, but direct in-product messaging depends on Chat being Active. | Sales can explain why Ambassador Management and Chat are often purchased together. |
| Use cases          | Admissions questions, student life, housing, courses, culture, arrival preparation, clubs, and peer reassurance.          | Ambassadors reduce uncertainty and make onboarding more human.                     |
