

■ PAID FEATURE · MOBILITY PROGRAM

Mobility Program: the exchange lifecycle from application to reports.

A mobile-first academic mobility workspace for Mobility Offices: applications, document review, approval decisions, nominations to partner universities, programs, partners, tasks, reports, and institutional oversight.

PRIMARY USERS

Mobility Program Admins · Students · University Admins

ADMIN OWNER

COMMERCIAL MODEL

Standalone paid module

[← Back to Paid Features catalog](#)

■ FEATURE OVERVIEW

Replace email threads and spreadsheets with one governed mobility flow.

Mobility Program digitizes exchange operations. Students submit and track their journey, Mobility Program Admins review applications and nominate

approved students, and University Admins monitor partner network, budget, programs, users, and reports.

What the client gets

When Active, the module unlocks a Mobility Program Admin role, command center, student directory, approval queue, application detail, nomination hub, program catalog, partner university directory, documents, reports, settings, notifications, and university-level oversight surfaces.

5

Lifecycle stages from application to in-mobility

3

Roles: Student, Mobility Admin, University Admin

17

Mobility Admin operating screens

1

Single source of truth for exchange decisions

Sales story: Mobility Program is for universities that want to professionalize international-office operations. The team can show how every student record moves from submitted application to approved nomination and reporting evidence.

■ WHAT USERS CAN DO

The module supports the full mobility office operating model.

STUDENT

Apply and track journey

Students follow a 5-stage journey, complete tasks, upload documents, read notifications, chat with support, and view status.

REVIEW

Approval queue

Admins filter applications, open detail pages, inspect GPA, eligibility, documents, notes, and choose approve, reject, or request info.

NOMINATE

Partner assignment

Approved students appear in Nomination Hub; admins select a partner university and nominate the student for acceptance.

PROGRAMS

Program catalog

Admins manage exchange programs, durations, funding information, partners, enrollment stats, status, and detail pages.

PARTNERS

Partner universities

Search partner universities, review agreement status, student counts, active programs, rankings, and destination details.

REPORT

Operational and institutional reports

Generate annual, quarterly, evaluation, survey, and financial reports with metrics, summaries, and export actions.

Detailed functionality map

AREA	DETAILED FUNCTIONALITY	WHAT THE CLIENT CAN EXPLAIN
Application data	Student identity, program choice, destination preference, GPA, major, year, statement, transcripts, passport/identity files, and required documents.	The module captures the complete review package in one record.

AREA	DETAILED FUNCTIONALITY	WHAT THE CLIENT CAN EXPLAIN
Review criteria	Admin reviews completeness, GPA, eligibility, program fit, document validity, notes, and priority badges such as high GPA.	Approvals are based on visible criteria, not email guesswork.
Decision actions	Approve, reject, or request more information with review notes and status updates.	Every application has a clear decision path and next state.
Nomination	Approved students become eligible for partner university nomination from the Nomination Hub.	Partner assignment happens only after internal approval.
Program management	Programs include type, duration, deadline, funding, enrollment, partner universities, status, and descriptions.	Mobility offices manage the program portfolio in the same product.
Partner management	Partner universities include country, city, agreement status, student counts, ranking/context, active programs, and website/details.	Partner context is visible during nomination and reporting.
Reporting	Annual, quarterly, evaluation, survey, and financial reports summarize mobility counts, completion, budget, satisfaction, and partner performance.	Leadership can make decisions from evidence instead of manual spreadsheets.

■ ANIMATED EXPLANATION

How information is taken, reviewed, approved, and nominated.

PLAY STORY

■ LIFECYCLE

The five stages clients can present easily.

STAGE	WHO ACTS	WHAT HAPPENS	EXIT CRITERIA
Application	Student	Submits form, statement, transcripts, and documents.	Required documents submitted.
Review	Mobility Admin	Checks GPA, documents, eligibility, and program fit.	Approved, rejected, or more info requested.
Nomination	Mobility Admin	Nominates approved student to partner university.	Partner acceptance received.
Pre-Departure	Student with admin support	Completes visa, orientation, passport, housing, insurance.	Pre-departure tasks complete.
In Mobility	Student monitored by admins	Arrives, enrolls, studies, and completes semester.	Semester completed and student returns.

Important scope note: This feature page explains the module and admin workflow. The current documentation update intentionally does not add new

Student Flow content beyond the module explanation already requested.

■ FAQs

Mobility Program questions clients usually ask.

What is Mobility Program?

Is Mobility Program separate from normal User Management?

What information is collected from a student application?

Who approves applications?

How does an admin review an application?

What happens when an application is approved?

What happens when an application is rejected?

What does request more information mean?

What does nomination mean?

What does the Nomination Hub show?

+

What program information can be managed?

+

What partner information can be managed?

+

What reports are available?

+

How is University Admin different from Mobility Program Admin?
